SKILLS

- Project Management
- Restful API's
- Prompt Engineering
- JavaScript
- Typescript
- React.js
- React Native
- Vue.js
- Node.js
- Redux
- Zustand
- PostgreSQL
- Prisma
- Cypress
- Puppeteer
- Terraform
- SQL
- Docker
- AWS
- Next.js
- Elasticsearch

Degree

Texas A&M University –
Commerce
Commerce, Tx – 05/2019

Bachelor of Science: Computer Information Systems

SUMMARY/OBJECTIVE

I am a dedicated software engineer with a strong foundation in frontend full-stack development, seeking to advance into a senior software engineer role and ultimately transition into a product management position. I have proficient experience in React.js, TypeScript, Node.js, Postgres and Elasticsearch, with a passion for delivering high-quality software solutions. I am detail-oriented, organized and meticulous and work at fast pace to meet tight deadlines. I love challenges, learning and problem solving and have a passion for growth!

WORK EXPERIENCE

Software Engineer // **Cenergistic**, Dallas Tx
Nov 2021 - Current

- Currently serving as a Front-End Full Stack Developer with proficiency in TypeScript, React.js, Node.js., PostgreSQL
- Lead development and maintenance of frontend/middleware/backend for our two main web applications (GreenX/Measure)
- Designed database schemas and implemented RESTful APIs for data access and management.
- Designed and developed robust solutions to meet company requirements revolving around graphs/tables/charts/etc. to display data from our RDBS and NoSQL DB via RESTful APIs.. (MUI-X/D3/Victory Charts/VisX/Postgres/Elasticsearch/React Query)
- Converted entire codebase from VanillaJS to React.js, utilizing React Query/Context/Typescript (GreenX)
- Helped lead implementation of SSO for web applications utilizing WorkOS
- Lead all data scraping to drive the functionality of our data driven applications via Node TS scripts and terraform deployments
- Onboarded and mentored junior developer, guiding questions and encouraging the expansion of their skill-set

Software Engineer // **Wipro Limited**, Plano, TX
June 2019 - Nov 2021

- Successfully contributed to two key projects: East West Bank and PHEAA.
- Participated/lead in design, implementation and deployment of frontend and backend features. (PHEAA – React.js/Node.js) (EWB – React Native)
- Supervised work as lead developer for the last half of the project duration for PHEAA.
- Managed Jira Board and created/assigned tickets for dev team
- Delivered unit-tested systems within customer-prescribed timeframes.
- Informed internal personnel and external stakeholders of project milestones.

Side Projects

Policy Rage – Oct 2023
- Created requested prototype for insurance company to provide a portal to view policies, clients, revenue, and quotes
- React.js/Zustand frontend, Node.js backend, and PostgreSQL
